12 April 2012

TECHNICAL DATA SHEET

PRODUCT NAME: INTERSECTION ROAD TAPE
MANUFACTURER'S CODE: IRT
SUPPLIERS NAME: TRAFFIC TECH PTY LTD
REGULAR TELEPHONE NUMBER: Int + 61 2 9477 7262
ADDRESS: Unit 2, 26 Leighton Place Hornsby NSW 2077 Australia
EMERGENCY PHONE NUMBER: 0407 562 262
FACSIMILE NUMBER: Int + 61 2 9477 7212

<u>Technical Characteristics</u>	<u>Data</u>
Raw Material	Urethane/Rubber Composite
Composition - Top	Contains a reflective layer of select glass spheres in an integrated reinforced system with anti-abrasion particles bonded to a highly durable urethane wearing surface.
Composition – Underneath	Coated with a unique pressure sensitive adhesive designed to adhere to bituminous surfaces without the use of heat, solvents or other extra measures. Concrete surfaces and old asphalt require a primer
Colour	White
Night Visibility	Highly visible reflective properties. Front, angular and diagonal up to 700mcd.
Day Visibility	Hi UV Stability and colour retention.
Skid Resistance	50 bpn
Duration of Reflection	Tests have shown little variation after long periods of UV exposure or other atmospheric agents.
Hazards	No Hazardous components
Sizes	Standard: 80mm x 50m 100mm x 50m 120mm x 50m 150mm x 50m 200mm x 25m 300mm x 25m 450mm x 15m
